

2022

END OF YEAR REPORT

PROUDLY SERVING MICHIGAN'S 11TH DISTRICT

FROM CONGRESSWOMAN HALEY STEVENS:

Dear Residents of Michigan's 11th Congressional District,

This was an incredible year for my office, and I am so grateful for the opportunity to serve and deliver for the families in our district. We returned a record amount of federal dollars to constituents and small businesses in Michigan's 11th District, many who were still struggling with pandemic related challenges. I also secured nearly 18 million dollars in federal funding for new district projects ranging from infrastructure, to funding for police departments to the construction of new public spaces for seniors and families. In my role as Vice-Chair of the House Space, Science and Technology Committee, I helped secure major wins for our best-in-class Michigan manufacturers in the CHIPS and Science Act which was signed into law by President Biden this summer.

In 2022 alone, my office has returned **\$67,664,112.08** to constituents and closed **1,613** federal issue cases ranging from passport assistance to Department of Veterans Affairs challenges. This means that my office has returned our annual operating budget to the taxpayers of Michigan's 11th Congressional District more than 60 times over!

In March, I announced that I secured nearly 18 million dollars of federal funding for 10 community projects across Michigan's 11th District. These funding projects were signed into law by President Biden, as part of a bipartisan government funding package. My staff and I worked in lockstep for months with mayors, township supervisors, local and statewide elected officials from both parties to determine the greatest needs in our communities. Every community project that was identified and submitted to the House Appropriations Committee was funded. When we invest in our communities, they thrive, and this funding will impact countless lives throughout SE Michigan. A full list of funded projects can be found [here](#).

The CHIPS and Science Act is a historic bill that is a major bipartisan investment in semiconductor chips, science, and technological competitiveness to bring manufacturing back to the United States. SE Michigan, the economic engine of the Midwest has felt the semiconductor chips shortage acutely, most particularly within our automotive sector. While this is not an overnight fix, it is a huge step forward in bringing chip manufacturing back home to America and strengthening our supply chains. This groundbreaking bill is an investment in our people – it reflects our ability to reach higher, think deeper, and invent solutions to not only today's problems, but solutions for tomorrow's problems as well.

As you may know, Michigan lost a Congressional seat this year due to a lack of population growth. I am overjoyed to continue to represent Oakland County in Congress and get to know folks in new cities like Pontiac and Royal Oak. However, I am deeply saddened that I will no longer represent Wayne County. It has been my honor to serve as your elected representative for two terms in Congress. I will always be a fierce advocate for the people of Michigan!

This report is just a snapshot of the work that I have done this year alongside my staff in Washington and Livonia. I encourage you to follow me on Facebook, Twitter and Instagram as well as signing up for my email newsletters to get the most up to date information about what I am working on in Congress.

Thank you for placing your trust in me. I look forward to another productive year in Congress delivering for Michiganders and advocating for working families!

Sincerely,
Haley Stevens

A handwritten signature in blue ink that reads "Haley Stevens" with a stylized flourish at the end.

STEVENS**

PROUDLY SERVING MICHIGAN'S 11TH DISTRICT

CASEWORK TESTIMONIALS

"The staff at Congresswoman Stevens' office does a superior job at assisting constituents. I was running out of options to renew my passport before an important international trip, and, after reading testimonials about the Congresswoman's influence in this domain, I decided to contact her office for assistance. The staff worked quickly and diligently to assist me. They exceeded my expectations and managed to help me get an appointment to renew my passport within days of my initial call. I was expecting to have to cancel my trip, but the Congresswoman's staff made the complete opposite possible for me.

Thank you again!" -Elaria Essak, Troy

"I had the misfortune of having to deal with an Internal Revenue Service (IRS) mistake this year, and let me tell you, it was a nightmare. Thankfully, I had Congresswoman Haley Stevens' office on my side. Her staff, with the help of the Taxpayer Advocate Service (TAS), was a godsend. Her office was masterful at dealing with government bureaucracy. They know how to dance the line and what to do in order to get things done, while still being helpful and patient with those they are assisting. With their persistence, I was able to get my return and avoid losing my home. Not all heroes wear capes! Thank you Congresswoman Stevens for knowing how to choose excellent staff!

Keep up the excellent work." -Robert Cholette, Troy

"We contacted Congresswoman Stevens' office because we were having issues with getting our Economic Injury Disaster Loan (EIDL) funded by the Small Business Administration (SBA). We were already approved, but the funds just weren't coming and money was getting pretty tight. They were able to get our funding issued and I can't begin to explain how thankful I am that they helped us in this process. The 30 families that rely on me to make sure this place stays in business and is successful thank them as well."

-Jeff Allingham, Birmingham

"I am so grateful.... I was waiting on my Social Security disability funds since July and my car payment and rent was getting further behind to the point I had an eviction notice issued. I looked up my rep and I called and got results. Thank you so much I am so appreciative for your service. Bless you for being there for me and my family."

-Bernadine Douglas, Canton

"I had to file for my Employment Authorization Document (EAD) again because of a U.S. Citizenship and Immigration Services (USCIS) error. We had all the paperwork to prove it was a clear agency error but USCIS would not listen to reason. That is when we contacted Congresswoman Stevens' office for help. They filed an inquiry on our behalf to expedite the second application for an EAD as well as get a refund for that application. Her office was able to get my EAD [issued] and fees back which I had absolutely no hope for. I appreciate all the efforts Congresswoman Stevens' office put into resolving my issue. I think they understand the troubles we go through as immigrants and are very patient with us."

-Virati Sanghvi, Canton

"Over a year had passed and I had not yet received my 2020 tax refund. Throughout 2021 I made numerous attempts to contact the Internal Revenue Service (IRS). I wrote letters, placed calls, and visited their website. Not one time did I receive any correspondence back. In a last ditch effort I turned to Congresswoman Stevens' office. In less than 24 hours, a staff member called me. He showed great empathy as I explained my predicament. I am happy to report that I received my refund 2 weeks later. I am deeply grateful for the personal attention that I received from Congresswoman Stevens' office. She was there for me when I had nowhere else to turn...thank you." -John Soullier, Waterford

LOWERING COSTS FOR MICHIGAN FAMILIES

Rep. Stevens Secures Wins in the CHIPS and Science Act – Votes for Historic Investments in American Manufacturing and Innovation

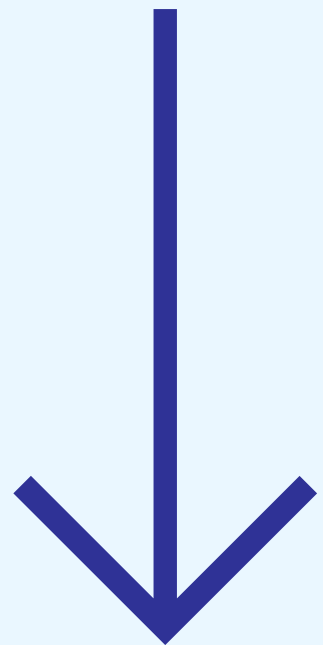

Price and Stevens Pass Legislation to Ensure Victims of Spousal Abuse are Able to Sever Joint Consolidation Loans

Reps. Stevens, Ross, Williams and Adams Introduce Legislation to Deliver Relief for Federal Student Loan Borrowers

Rep. Stevens Votes to Lower Food and Fuel Costs for Michigan Families

Rep. Stevens Votes to Lower Health Care and Energy Costs for Working Families

Reps. Stevens and Dingell Introduce Legislation to Help America Compete, Lower Vehicle Costs, and Reduce Greenhouse Gas Emissions

CHAMPIONING MANUFACTURING

Equitable Engineering in Troy has been manufacturing precision gears, splines and Curvic Couplings that are utilized in the Aerospace and space industries for over 40 years.

Lonero Engineering in Troy has been a leading machine tool shop for over 70 years specializing in Deep Rolling tooling.

Honored to have received the Motor and Equipment Manufacturers Association (MEMA) Industry Champion Award!

Spent Manufacturing Day with Oakland County students! I spoke to them about the importance of manufacturing jobs and joined them as they visited BorgWarner, an automotive supplier headquartered in Auburn Hills, to see those jobs firsthand.

SIGNED

KEY LEGISLATION OF THE 117TH CONGRESS

Fighting Inflation

To address the cost of living, Congress enacted the **Inflation Reduction Act**, which lowers health care and prescription drug costs for millions. The clean energy provisions make clean, secure American energy more affordable.

Creating Good-Paying Jobs

The **American Rescue Plan** put vaccines in arms, money in pockets, and helped reopened the American economy. We passed the **Infrastructure Investment and Jobs Act** to provide historic investments in infrastructure, while creating millions of union jobs across the country. To compete in the 21st century, we enacted the **CHIPS and Science Act** to make more in America and with American workers.

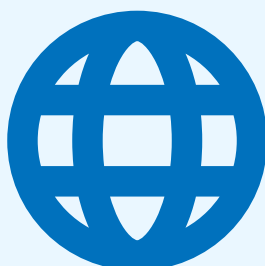

Building Safer Communities

Congress provided billions to local police departments in the **American Rescue Plan** and annual funding bills, giving them the tools they need to keep our communities safe. And we enacted the **Bipartisan Safer Communities Act** to invest in measures that help protect our communities and keep guns out of dangerous hands.

Providing for Our Veterans

We enacted the **Honoring Our PACT Act**, ensuring that 3.5 million veterans who were exposed to toxic chemicals while serving our nation can access the health care they need.
